

## *Report to the Auburn City Council*

Action Item  
Agenda Item No. **3**

*[Signature]*  
City Manager Approval

**To:** Mayor and City Council Members  
**From:** Bernie Schroeder, Director of Public Works *BS*  
Megan Siren, Administrative Analyst/Transit Manager *MS*  
**Date:** October 28, 2013  
**Subject:** Auburn Transit On-Board Surveillance Project

### **The Issue**

Shall the City of Auburn approve the purchase of on-board surveillance for the Transit Division?

### **Conclusion and Recommendation**

Staff recommends that the Council, by **RESOLUTION** authorize The Director of Public Works to purchase on-board surveillance from 247 Security, Inc. for Auburn Transit.

### **Background**

The Public Works Department has applied and received funding from the California Office of Emergency Services Proposition 1B Transit Security Funds in the amount of \$28,340 to purchase and install on-board surveillance on the Auburn Transit fleet.

Placer County Procurement Services Division issued a request for bids for Placer County Transit and included the option for Auburn Transit to utilize the competitive bid. The bid solicitation described the intent to award to the lowest responsive and responsible bidder who complied with the bid solicitation. The Placer County Board of Supervisors awarded the bid to 247 Security, Inc. on August 20, 2013. By the City utilizing this procurement process, we avoid costs normally associated with developing the bid specifications, but assure the competitive bids are received.

The on-board surveillance project will allow the City to record events on board transit buses to assist with the review of criminal or safety matters. Currently, the fleet does not have on-board surveillance systems. The on-board surveillance project costs \$25,525.

### **Alternatives Available to Council; Implications of Alternatives**

1. Authorize the Staff to purchase the bus.
2. Do not proceed with the bus purchase at this time.

### **Fiscal Impact**

The purchase of the on-board surveillance will be paid out of the Transit Fund with the California OES Proposition 1B Transit Security Funds. The on-board surveillance project cost is \$25,525.
